1. **Download and install** the TI Connect Software v. 1.6. A copy of this is included in the CD-ROM that comes with your graphing calculator.
    On the network, in the Run window enter the following:

    \\caserver\caresources\Classes\Denis Shubleka - CASERVER\AP Calculus AB-BC\TEXAS INSTRUMENTS CONNECT

TI Connect 1.6 Setup

We recommend that you exit all other applications before installing TI Connect 1.6.

If you receive a Microsoft® warning regarding a driver not being signed, please select 'Continue Anyway' in order for your Texas Instruments Education Software to install properly.

TI Connect version 1.6 provides advanced communications capabilities that may require an update to your TI device's Operating System. (You can update using TI OS Downloader following installation.)

Do you want to continue installing TI Connect version 1.6?
